

## **The 5th CJK ICT Ministerial Meeting Minutes**

The 5th China-Japan-Korea ICT Ministerial Meeting hosted by the Korea Communications Commission (KCC) of the Republic of Korea was held in Kuala Lumpur, Malaysia on 14th of January, 2011.

Vice Minister Xi Guohua, Ministry of Industry and Information Technology of the People's Republic of China, Vice Minister Yamakawa Tetsuo, Ministry of Internal Affairs and Communications of Japan and Chairman Choi Seejoong, Korea Communications Commission of the Republic of Korea along with government representatives of the three countries were represented.

The Ministers of the Republic of Korea, the People's Republic of China and Japan delivered their keynote speeches respectively and each Minister touched upon the importance of strengthening cooperation among the three countries.

Progress report on the CJK ICT Ministerial Meetings and the working-level cooperation presentation were given followed by presentations on key policies and cooperation proposal from the People's Republic of China and the Republic of Korea as well as presentation on key ICT policies of Japan.

The Republic of China proposed to cooperate in actively promoting IPv6 through joint efforts in improving related technical standards and maturing the industrial chain to reduce costs and difficulties incurred during transition. In addition, the Republic of China suggested furthering exchanges in broadband development and continuously strengthening exchanges and interactions in the field of mobile communications.

Cooperation proposal from the Republic of Korea was on trilateral cooperation on cloud services by hosting international conferences and forums to compete against dominance of global companies in the early stages of the market in addition to expanding cooperation on standardization between our private standardization organizations to the government level.

Furthermore, the Republic of Korea proposed to amend the Arrangement among CJK ICT Ministers on cooperation framework in the field of ICT. Main changes were to reorganize the cooperation structure and revise the cooperation areas. Opinions on the revision were given by Japan and the People's Republic of China respectively.

Moreover, Vice Minister of Japan proposed to further cooperate in research and development in information security measures against spam and development of human

resources as main areas of the ICT cooperation of the CJK for the future as well as building multi-lateral cooperation in collaboration with tri-lateral cooperation.

The plans for the next CJK Ministerial meeting were discussed and reached a conclusion to that Japan will hold the next Ministerial Meeting.

The meeting concluded with the Ministers of the Republic of Korea, the People's Republic of China and Japan signed the amended Arrangement in triplicate, a copy in Chinese, Japanese and Korean.
